

Investment Themes Your Wealth Manager Isn't Telling You About: Cryptocurrencies

astute investors should take time to understand the technology that computer geeks are enthusiastic about. Today, that is Bitcoin and other cryptocurrencies.

Problems with Today's Wealth Management Industry

Although WindRock Wealth Management is a U.S.-based Registered Investment Advisor which manages money for wealthy individuals, you certainly seem different from other firms out there.

Winter is Coming

Fans of HBO's hit series, Game of Thrones, know well the motto of House Stark: "Winter is Coming."

Cryptocurrency Roundtable

I first started looking at cryptocurrencies back in the second half of 2013. We were watching what was going on with the banking crisis in Cypress.

The Long and Short of It

Combined with an extremely uncertain and potentially deteriorating economic situation, current equity valuations suggest this stock market is one of the most overvalued – and therefore potentially dangerous – in history.

Combating Inflation with Corn

Farmland is an inflation hedge. Allocating part of one's investment portfolio to farmland (particularly farmland in nations that will experience relatively high inflation) will not only protect investors but will allow them to profit – perhaps immensely.
